

PRESIDENT ANXIOUS TO HONOR VETERANS

Signifies His Desire to
Review All Parades.

SPECIAL STAND TO BE BUILT

Committee Decides to Erect One in
Front of White House for the Use of
Mr. Roosevelt and His Immediate As-
sociates—Chairman Warner Gratified.

President Roosevelt today stated that it was his desire that the members of the Grand Army during the forthcoming encampment should be extended the most cordial welcome possible, and that it was his purpose to personally contribute toward this end by all means in his power. This statement was made to Chairman Brainard H. Warner, of the citizens' executive committee, during an audience which was granted him this afternoon in connection with the program for the encampment.

While arrangements have not been completed, and while they will be dependent to an extent upon the condition of the President, it is the present purpose of Mr. Roosevelt to participate in the exercises to a greater extent than has been heretofore contemplated. The matter of the exact program of the President's participation will be held in abeyance for several days. It is understood that he will review all of the parades that have been arranged for encampment week, and for his convenience it was today decided to build a special stand in front of the White House for the exclusive use of the President and his immediate associates. This stand will seat about 500 people.

Mr. Warner was most gratified at the great interest evidenced in the encampment by the President and believes that his interest will contribute in no small extent to the success of the enterprise. Mr. Warner is also deeply gratified at the co-operation of the heads of the several departments, who are doing everything in their power to make the encampment a success.

"In fact," said he, "they have given encouragement the right of way. Especially has this been the case at the War Department. Without the substantial aid which has been given us by Secretary Root and his assistants we could not have done many things which we are now able to accomplish."

"The Commissioner of Pensions has been more than kind. His office will be a continuous reception during the encampment. He is going to specially detail a large force to answer any inquiries that are submitted to him by visiting comrades and their friends."

"Commissioner Ware today notified me that the Modoc Glee Club, of Topeka, Kan., one of the most celebrated in the United States, consisting of forty members—merchants and business men of Topeka—will be here during the Grand Army encampment. This club has long been a favorite at political conventions and gatherings. They sing not only patriotic selections, but also new and good things, not excluding 'rag time' music. It will be remembered that this club participated very prominently at the national convention which nominated McKinley and Roosevelt. The President of the club is Hon. T. J. Anderson, who is one of the greatest political favorites in that State."

DISMISSED BECAUSE HE STRUCK PATIENT

Dr. Stuart Leaves Staff of
Emergency Hospital.

BLOW WAS IN SELF-DEFENSE

Powerful Man Under Treatment for
Poison, Taken With Suicidal Intent,
Set His Teeth in Physician's Hand.
Had Intended to Resign.

Dr. David T. Stuart was dismissed yesterday from the position of senior resident physician at the Emergency Hospital for striking a patient under his care. The order of dismissal was promulgated by Dr. H. L. E. Johnson, the executive officer of the board of directors of the institution.

In a statement made by Dr. Stuart last night he admitted striking the patient and explained that it was quite necessary under the circumstances that he should do so. He also said that he knew that his action was an infringement of the rules governing the hospital and feels no resentment against Dr. Johnson because of his dismissal. In fact, Dr. Stuart said that had their positions been reversed he would have acted just as Dr. Johnson did.

Left for New York This Morning.

Dr. Stuart's term of service at the Emergency Hospital would have expired in one week and he would have been retired. In view of this he had decided to go to New York to continue in hospital work. As soon as he received his dismissal Dr. Stuart commenced packing his effects, and at 3 o'clock this morning left Washington for New York.

Dr. Johnson declined to discuss the matter in any of its phases. He stated, however, that he would issue a statement on the affair.

Dr. Stuart explained that the patient whom he struck was a man brought to

the hospital in an unconscious condition from drinking arsenic with suicidal intent. The man was powerful and weighed about 200 pounds. Dr. Stuart is of medium stature and weighs only about 150 pounds.

Dr. Stuart stated that while he was trying to relieve the patient the latter suddenly took hold of his hand and putting one of his fingers in his mouth, began to chew it. The pain he suffered, Dr. Stuart said, was intense. He tried to extricate his finger from the man's mouth, but without success. It was then that he found it necessary to strike the man to compel him to release his hold upon his finger.

Dr. R. L. Sutton will succeed Dr. Stuart as senior resident physician at the hospital.

The patient who caused the trouble did not give his name to the hospital authorities. The police state that he is the son of a prominent merchant.
